INTRO: Frontend engineer with 2 years of experience building applications in TypeScript and Vue.js for high-ticket clients, with additional projects in React, Svelte and Astro. Business-minded, proactive, independent problem-solver focused on constantly adding value to teams and projects; passionate about useful products and clean code.

SELECTED WORK EXPERIENCE

Stratacache   **July. 2022 – Present**
Frontend Engineer - Vue 2/3, Javascript/Typescript, HTML/CSS, Git, Jira, Storybook   *Dayton, OH*
- As Application Developer, I translate designs from Tim Hortons, McDonalds and other clients into Vue apps
  - Taco Bell redesign: contributed ~20% of code to current menu boards in the field
  - Tim Hortons Canada: serviced constant bi-weekly content changes for 4000+ locations
  - Tim Hortons US: responsible for application builds & deployments, including close work with QA
- **i18n:** Maintained multi-language support, including 4 variations of French & English combinations
- **Project Standardization:** Standardized code bases, including Documentation, Prettier/linting, node & node module versions, proprietary components, branching strategies and branch cleanup for 5 major client projects
- **Internal Tooling:** Worked on several components for a frontend UI Library, each with multiple stories and tests; implemented these components across a range of internal tools to standardize brand, feel and functionality

Debatetrack   **March 2019 – Present**
Webmaster / Content Creator   *Online*
- Debatetrack is an education brand for high-school debate clubs, publishing free & paid learning materials
- As Webmaster / Content Creator, I research & record lectures for YouTube & manage marketing & sales:
  - Email list management: 0-3000 in a ~10000-customer niche, 50%+ open rates and 10% sales conversion
  - Top-of-funnel: create & maintain content funnel

ThatAPICompany   **March 2022 – July 2022**
Application Developer - Javascript, HTML/CSS, React, Git   *Online*
- Developed demo applications for educational APIs, including the famous Cat API – demo here

University of Arkansas Department of Chemical Engineering   **April 2012 – August 2012**
Research Assistant   *Fayetteville, AR*
