SELECTED WORK EXPERIENCE

RoveIQ

July 2024 – Feb 2025 (*downsized*)

Frontend Engineer – Vue 2, Svelte, Javascript/Typescript, HTML/CSS, Git, Postgres, Golang

Remote

- As a frontend engineer, I translated designs from clients like Disney & Miami Design District into Vue apps
 - Disney Springs: primary engineer for initial client design
- **i18n:** developed 10 different language keyboards, including Chinese and Korean while implementing i18n
- **component development:** developed new components like a send-to-phone sequence

Stratacache

July 2022 – July 2024

Frontend Engineer - Vue 2/3, Javascript/Typescript, HTML/CSS, Git, Jira, Storybook

Dayton, OH

- As Frontend Engineer, I translated designs from Tim Hortons, McDonalds and other clients into Vue apps
 - Taco Bell redesign: contributed ~20% of code to current menu boards in the field
 - Tim Hortons Canada: serviced constant bi-weekly content changes for 4000+ locations
- **Bug fixes:** first-line of trouble-shooting for bugs from integration, technical errors, or hardware mismatches
- **i18n:** Maintained multi-language support, including 4 variations of French & English combinations
- **Project Standardization:** Standardized code bases, including Documentation, Prettier/linting, node & node module versions, proprietary components, branching strategies and branch cleanup for 5 major client projects
- **Internal Tooling:** Worked on several components for a frontend UI Library, each with multiple stories and tests; implemented these components across a range of internal tools to standardize brand, feel and functionality

Debatetrack

March 2019 – Present

Owner & Operator

Online

- Debatetrack is an education brand for high-school debate clubs, publishing free & paid learning materials
- As Owner & Operator, I research & record monthly policy lectures for YouTube & manage marketing & sales
